EXPERIENCE

Senior Software Engineer

Upwork

📅 03/2022 - Present   📍 Remote

- Developed a range of microservices in Java, utilizing technologies like Hystrix, Kafka, DynamoDB, Thrift, and Camunda.
- Participated in the design and development of a project aimed at modernizing offers, utilizing Camunda as the Business Process Management tool.
- Conducted comprehensive testing using Spock and Mockito, achieving a code coverage of over 90% to ensure code reliability.
- Contributed to Agile processes including sprint planning and daily stand-ups

Tech Lead, Senior Software Engineer

Caravelo

📅 08/2020 - 03/2022   📍 Remote

- Responsible for leading the delivery projects and technical project initiatives
- Actively using AWS Services like SQS Lambda, Kinesis, API GW, and more
- Airline Subscription - Transforming the application from on-premise to a SaaS product by redesigning the backend application architecture and defining standardized UI components.
- Data Platform Initiative - I was responsible for designing and building the data platform using AWS Services and making the integration of existing application platform to our new data lake implementation

Senior Software Developer, Team Leader

Turkish Airlines

📅 03/2013 - 08/2020   📍 Location

- Worked on design and development of the B2B Reservation and Ticketing web application modernization project
- The application provides Issue, Reissue, Refund, Reservation, Ticketing, Fare Quote and many other abilities to Sales Offices, Call Centers and Tourism Agencies
- Participated in tons of integration projects using SOAP and Rest services
- A member of the Enterprise Architecture Committee of Turkish Airlines IT.

Software Specialist

Innova

📅 08/2011 - 02/2013   📍 Location

- Engaged in the development and meticulous unit testing of diverse-sized projects, predominantly leveraging Java, EJB, and SOAP services, with a primary focus on Customer Relations Management, Workforce Management Systems, and Billing Systems for Turk Telekom.

EDUCATION

BSc in COMPUTER ENGINEERING

Middle East Technical University

📅 01/2011

SUMMARY

Experienced software professional with a track record of contributing to impactful projects in diverse technical environments. Over 12 years of experience working on robust microservices, modernizing applications, and leading technical initiatives. Proficient in Java, AWS services, and workflow management tools. Adept at driving agile processes and ensuring code reliability through rigorous testing. Skilled in fostering collaboration across cross-functional teams.

"Perfection is achieved, not when there is nothing more to add, but when there is nothing left to take away."

TECH STACK

Agile	Java	AWS Services
Rest Services	SOAP Services	
Camunda	Payment Systems	
Kafka	AOP	JPA	Spring
Design Patterns	Docker	
Functional Programming	JavaEE	
Kinesis	Lambda	SQS
CloudFormation	Microservices	
Thrift	Hystrix	NodeJS	Scrum
Serverless	Mockito	Spock
Unit testing	Integration testing	
Vue.js	Web Services	Typescript
